

Landscaping Sydney – Landscape Gardeners & Designers Sydney

Our landscape designers in Sydney enjoy collaborating with our clients and are committed to building them a beautiful life outside, quite literally from the ground up! We can assist whether your landscaping project is a large scale garden or a smaller courtyard, patio or balcony. Our landscape gardeners in Sydney strive to create outdoor spaces that are beautiful and inspiring and that complement our client's lifestyle. Whether it's garden design or pool landscaping in Sydney, we offer a full 3D render as part of our premium service to help you visualise the end result.

Landscape and garden design

Do you have landscape garden design ideas to transform your outdoor space? With our solid planning and design expertise, let's turn your ideas into reality. Stone Lotus has a team of landscape designers in Sydney that specialises in:

1. Design
2. Construction
3. Styling
4. Maintenance

Landscape contractors & Architecture Sydney

Whether you are looking to build a large scale garden complete with furniture accents and outdoor lighting, or wow your guests with a secret garden in the backyard, our landscape contractors and architects can help choose your unique way to add value to your outdoor space by creating:

1. a practical garden design
2. a beautiful entertaining area
3. an outdoor cookout, or anything that suits your taste and lifestyle

Founder Andrew Sidie, is a qualified landscaper and horticulturist with a passion for gardens and outdoor living. He has over 10 year's industry experience in a variety of roles, including project management, estimating and design.

Stone Lotus Landscapes was born out of Andrew's love for the outdoor lifestyle and desire to share this with his clients. Andrew enjoys creating inspiring and practical outdoors spaces that not only add value to a property but also his client's lifestyle.

Andrew and his team treat each project and client as an individual and strive to develop their client's vision. Andrew's wide range of experience and skills, together with his passion for quality design, ensures each project moves from initial concept to final completion, on time and within budget.

A good outdoor space is a vital extension of your home. It can be many things; a quiet sanctuary, a kids soccer field, a mini farm producing fresh herbs and veges, a bustling second living and entertaining area. Either way, I love that what I do not only improves the look and size of my client's property but can also have a real impact on how they live their lives and improve their overall wellbeing
